Their expertise allows them to create accessories that complement the overall design of your vehicle, while optimizing performance.

TESTED TO THE HIGHEST INDUSTRY STANDARDS

All Land Rover accessories are rigorously tested and inspected to ensure they meet the exacting standards you expect from Land Rover. This ensures they always work in harmony with your vehicle.

Accessories are tested in extreme hot and cold temperatures to ensure they will perform in all conditions, all year round.

Corrosion resistance testing ensures accessories can withstand demanding climates such as coastal conditions, while a series of tests ensure seamless integration with your Land Rover Vehicle's existing features.

Accessories are put through their paces in a series of bespoke tests specific to their design, function and the materials from which they're made.

Exterior accessory testing, for example, includes:

- Exposure to up to two years of direct sunlight known as 'Florida Weathering.'
- Heat Aging Test for 500 hours.
- Extreme Heat Test ranging from -40°C to 80°C.
- Heat Shock Testing during which parts are cooled to -40°C for 16 hours, then heated to 70°C for 5 minutes.
- Humidity Resistance Test where accessories are subjected to 168 hours at 48°C in 95–100% humidity.
- Accelerated Environmental Cycle Testing comprising a relentless barrage of salt, dirt and dust to simulate real world driving.

QUALITY ASSURED

The Land Rover accessory limited warranty begins on the date of purchase of the accessory and is covered for 12 months of unlimited mileage or the balance of the new vehicle/emissions warranty, whichever is greater.
