

LEASE-END GUIDE

ABOVE & BEYOND

LEASE-END GUIDE

CONSIDER YOUR OPTIONS

WE HOPE YOU'VE ENJOYED THE EXPERIENCE OF DRIVING ONE OF THE WORLD'S MOST CAPABLE SUVs. NOW THAT YOUR LEASE IS NEARING ITS END, IT'S TIME TO CONSIDER YOUR OPTIONS AND REACH A DECISION REGARDING YOUR VEHICLE. YOU CAN:

- Purchase or lease a new vehicle or purchase an Approved Certified Pre-Owned vehicle.
- Purchase your current vehicle for the price stated in the purchase option section of your lease agreement (plus any applicable taxes and licence, title, registration and administrative fees).
- Return your current leased vehicle.

YOUR LEASE END CHECKLIST:

- Decide whether or not to purchase your Land Rover vehicle or return your current leased vehicle.

Select a new vehicle to purchase or lease, or an Approved Certified Pre-Owned vehicle for purchase.
- If you are planning to return your vehicle, you will want to do a self-inspection three (3) months before your lease expires, using the Lease-End Wear Evaluator provided to you. An agent from our inspection company will contact you approximately two (2) months prior to your lease maturity date to arrange a suitable time to assess your vehicle at your home or office. We recommend scheduling an appointment a minimum of one (1) month before your lease end date so that you may visit your Land Rover Authorized Retailer for any repairs following the agent's assessment (if necessary).
- Make any necessary repairs prior to returning your vehicle. Please consult with your Land Rover Authorized Retailer to ensure that original equipment is used (e.g. tires, windshields) and any required repairs are made to acceptable standards.
- Schedule your purchase or vehicle turn-in date with your retailer.
- You will need to be present at your retailer to review and sign a Vehicle Return Notification.
- You will receive credit for any unused "extra kilometres" purchased at lease inception.
- You will receive credit for your security deposit, if there are no outstanding charges.
- You are responsible for paying any outstanding fees for excess kilometres, excess wear and any other charges.

ASSESSING YOUR VEHICLE

EVALUATING YOUR VEHICLE'S CONDITION

Should you decide to return your vehicle, its overall condition will need to be evaluated. Don't be alarmed—a normal amount of wear is expected.

To inspect your vehicle, place the measurement bars on the Lease-End Wear Evaluator alongside any scratches, paint chips, dents or other damage. If your damage is less than the allowed length, you will not be charged for the damage. Here's what you need to check:

WHAT'S ACCEPTABLE

WHAT'S NOT

BUMPERS & PANELS

A maximum of two dents per panel. Each dent must be less than 3" in area.

Scuffs and scratches that penetrate the paint but affect an area less than 3" to a maximum of two occurrences per panel.

Paint chips that affect an area of no more than 3".

Any scratches or scuffs, regardless of size, that do not break the paint and can be removed through reconditioning.

Any dents, chips, scuffs and scratches that penetrate paint and exceed 3" in area.

Parts that are not replaced or repaired to original specifications. This can include misaligned items, mismatched paint, distorted body panels, aftermarket parts, poorly repaired/repainted panels, etc.

Paint damage due to environmental factors such as tree sap or bird droppings.

Cracked, punctured, buckled or gouged bumpers or metal panels.

Any graphics or decals added to vehicle.

GLASS & LAMPS/LENSES

Surface chips anywhere on the windshield.

Minor windshield scratches that can be removed through reconditioning.

A maximum of two bull's eyes on the passenger side (measured from centre of windshield). Chips must be less than 1/2" in diameter and free of any cracks.

Damage of any kind that's larger than 1/2" anywhere on the windshield.

Any damage, regardless of size or severity, on the driver's side of the windshield.

Replaced glass that does not meet original vehicle specifications.

Scratches caused by improperly installed windshield wipers.

Any damage of any size to headlamps, turn signals or exterior mirrors.

Any cracks or other damage to door glass or rear window.

INTERIOR

Cuts/tears and cracks to the interior trim and seating less than 1/2" in total size.

Any burn holes or singed areas less than 1/8" in total size.

Minor scuffs to seats and interior trim (console, dash, doors, mouldings, etc.) that can be removed through reconditioning.

Use the 1/8" standard to measure burn holes in upholstery and gouges in interior surfaces. Use 1/2" standard to measure stains, cuts and tears.

Cuts, tears and cracks to the interior trim greater than 1/2" in total size.

Any burn holes or singed areas greater than 1/8" in total size.

Any damaged or missing interior equipment, like headphones, remote controls, headrests, navigation CDs, visors, rear tables, cargo covers, etc.

Any damage to the controls (TFT screen, gear selector, navigation screen and ventilation modules).

Missing owner's manual or document case.

Smoke odours not removable through normal reconditioning.

WHAT'S ACCEPTABLE

WHAT'S NOT

WHEELS & TIRES

Scratches or scuffs to the wheel that are less than 6" and do not compromise safety.

To measure tread, place card edge into tire groove. Use the 1/8" standard.

Wheels and tires that don't match or that differ from the original equipment supplied on your actual vehicle (speed rating, size and brand).

A tread depth of less than 1/8" measured from the surface of the tire.

Bulges or indentations on the sidewall.

Plugged tires, including sidewall and tread.

Cracked, dented, warped, mismatched or otherwise damaged alloy wheels.

FRAME & BODY

Repairs that do not follow manufacturer's recommendations or restore vehicle to original specifications.

OPERATION

Cuts/tears and cracks to the interior trim and seating less than 1/2" in total size.

Any burn holes or singed areas less than 1/8" in total size.

Minor scuffs to seats and interior trim (console, dash, doors, mouldings, etc.) that can be removed through reconditioning.

Missing keys.

Any active warning lights (airbag, check engine, traction control, etc.).

Incomplete or overdue service.

Non-functional electrical or mechanical components.

Broken or missing engine cover.

Broken or missing air box cover and filters.

Any aftermarket accessories.

Your vehicle must also be assessed by an authorized third-party inspection company. Approximately two months prior to the end of your lease, an agent from the inspection company will connect with you to arrange a suitable time and location that is convenient for you to assess your vehicle. We recommend that your appointment take place as soon as possible and at minimum one month before your lease end date, so that you may visit your Land Rover Authorized Retailer for any repairs following the agent's assessment.

Please check the number of kilometres on your vehicle at this time. If you are over the allotted limit, additional fees will be due at lease end. If you feel you may exceed your allotted limit or have any other questions regarding your lease, contact your Land Rover Authorized Retailer or your lease provider at:

Land Rover Canada Financial Services 1-888-703-8868.

CONTINUE THE EXPERIENCE. YOUR NEXT LAND ROVER VEHICLE AWAITS.

Land Rover Canada will go to great lengths to serve you. Please contact your local Land Rover Authorized Retailer with any questions you may have about your current expiring lease. We look forward to serving you again soon.
